1	Name of the Lecturers	Dr.B.Adinarayana, B.Nagesh Babu
2	Group & Section	III BZC & BCCS ,II AND I BOTANY MAJOR (31)
3	Place of Visit	Balarajupalle, sanipai forest
4	Date	26-10-2024

5. Objectives of the visit: To study about the ecosystem of sanipai forest.
To understand the importance of ecosystem.
To know the difference between forest and aquatic ecosystem.

6. Observations:

The sanipai range of forest abounds in red sanders (Pterocarpus santalinus) which is endangered plant, it also abounds in many types of herbal plants which are very useful and widely used in making herbal medicines. Significantly it is observed that it is a dry deciduous forest and belongs to Seshachala biosphere, in that 1600 species, 1100 genus and 108 families are present. Apart from many herbal and medicinal plants. This forest is rich in timber yielding plants like Teak, Rose wood, arjun. Mainly ten species were dominated in this forest. We were also observing lotic ecosystem near to this forest. In this field trip students collected some plants. For the purposes of Botanical Garden in the college campus.
